April 2018

God has given us another great month to serve Him. I have been busy teaching and preaching, and I am thankful for so many open doors. Just recently I was able to go to Pensacola Christian College and speak to hundreds of students about the need of getting the Gospel around the world. It is my plea and desire to see more young people surrender their lives as missionaries!

I also have the opportunity to teach weekly at the Our Generation Training Center. I am grateful for the time I get to teach and influence our next class of missionary candidates. Once they finish the Our Generation Training Center, they will spend six months on the mission field to learn hands-on from a veteran missionary. I'm so grateful and thankful for the OGTC, a ministry out of our local church.

Currently we are raising funds for new housing of future missionaries. Our current dorms are almost filled to capacity, but by faith we are praying for more students and will need a place for them. Please help us pray and consider giving towards this project. We are praying for \$180,000, which will allow us to obtain a house with sufficient room for several students. You can find out more at www.ourgenerationministries.com or send in your tax-deductible donation to: Our Generation Ministries PO Box 442 Alpharetta, GA 30009.

We have just accepted our newest missionary, Nate and Maranda Francis, headed to the country of China. They are graduates of the Our Generation Training Center and are a fine couple that we believe God has big plans for.

In just a few days, I will be boarding a plane headed to South Africa. We will be holding a regional conference with several of the missionaries in that area. We are looking forward to a week of spiritual encouragement and equipment. Our desire is to hold three regional conferences a year in which my pastor and I travel to a specific region to encourage our missionary families in areas such as marriage, focus of ministry, and personal life. We have had very effective conferences in the past and are anticipating another in South Africa.

When the Iron Curtain in Russia fell, there were 12,000 Jehovah's Witness missionaries that rushed into the country to start works. What a sad reality it is that we, who have the truth, are being outworked, outmanned and outsmarted by those that do not have the truth. I beg God that a new generation of missionaries will be raised up and flood the harvest fields before our Lord's soon return.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that the records should be kept in a secure and accessible format. Regular backups are recommended to prevent data loss in the event of a system failure or disaster. The document also mentions the need for periodic audits to ensure the integrity and accuracy of the information stored.

In addition, the text highlights the role of technology in streamlining record-keeping processes. Modern accounting software can automate many tasks, reducing the risk of human error and saving valuable time. However, it is stressed that users must be properly trained to utilize these tools effectively.

Overall, the document serves as a comprehensive guide for anyone responsible for financial record-keeping. It provides clear instructions and best practices to ensure that all records are accurate, complete, and secure.
