

## February 2018

We have already had a great beginning to 2018! Immediately after the OG Summit (our

biggest event for gathering young people to talk about world evangelism), we held a “Vision Impact Weekend”. The goal was to have an Open House for young people ready to make a commitment in their training to become missionaries. They visited both Vision Baptist Church as well as the Our Generation Training Center to see if God would lead them to begin their missions preparation. We had a great time and many missionaries and current students shared testimonies and challenges. It is my prayer and desire to see many young people surrender and begin training to serve as missionaries all around the world.

This semester I’m excited to be able to **teach “Introduction to Missions” in the Our Generation Training Center**. We have 27 young people currently preparing for missions in the OGTC and I am thrilled I get to take part in helping in their preparation.

**We thank God that this past year we sent 5 missionary families to the field, 9 new families began deputation and 5 young couples started their 6 month internship on the field with a veteran missionary.** We have many goals for 2018 and are anticipating God’s hand in it all. Help us **pray that God would allow us to see a new generation of missionaries raised up** that will take the Gospel before our Lord’s soon return.

For almost over a year we have been praying for our son, **Hudson**, who is almost 6 now, to understand salvation. In fact, it has been his prayer request for a long while now when we pray at night that he would get saved. We have prayed for him and spoken to him multiple times but wanted God’s wisdom to help him. Well, just recently he came to me wanting to discuss salvation again and **ended up trusting Christ as his Savior**. Praise the Lord!

**We would love to help you make plans for a missions trip in 2018.** Whether you send your pastor, take the youth from your church or have a group interested, we would love to help you with the details to make the trip move from a desire to a reality. Give me a call and we can begin working on it right away: 770-362-3795.
