

June 2021

We just returned from **Ecuador, South America**. God allowed us to have a great time with our South American missionaries. We separated a week in which we were able to gather for encouragement, fellowship, and teaching about ministry, marriage, and personal growth. It was a big blessing, especially since many of our missionaries have been stuck in tight quarantine in their countries.

Our second daughter, Adriana, just **graduated high school**. She believes God **wants her to be a missionary** and will begin studies at the Our Generation Training Center in a few months. We are very proud of her and praying for her as she follows the Lord in her life.

In the next two weeks I have the opportunity to go on two survey trips with our missionaries. The first trip will be to **New York City with missionary Jon Canavan** to survey the area and pray about where he will be starting a church. His plans are to finish deputation and move there by August. The second trip we will be traveling to **Albania with Benjamin Broyles** to pray about the place God is leading him. Lord willing, he will be starting deputation in the next couple of months as one of our newest missionaries.

God is winning over Covid! I'm blessed to work with many missionaries that have not allowed this difficult time in history to stop them from advancing the Gospel. Jonathan Anderson started a **church in Mexico**, Daniel Sparks is starting a **church in Miami**, Brady Van Winkle started a **church in Turkey**, and John Walz started a **church in Taiwan** — all during Covid! Several missionaries have made it back to their fields and seeing people saved. God is good, even when it appears the world is going slow.

The last week of May we finished another semester in the Our Generation Training Center. Robert Canfield, who serves as director of the Training Center, allows both my wife and I to **teach these future missionaries**. Our next semester, which starts the first week of June, I will be teaching "**The Christian Home**" and "**Spiritual Warfare**."
